**Small Cap Value Composite** contains fully discretionary small cap value equity accounts that seek capital appreciation by investing primarily in small cap value domestic equity securities that trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value<sup>®</sup> approach. For this composite, RRAM defines a small cap company as one whose market capitalization is less than \$3 billion. The Manager selects securities from a universe of companies with a market capitalization at the time of initial purchase between \$50 million and \$3 billion, employing a value-driven, bottom-up fundamental approach. The official benchmarks for the composite are the Russell 2000 Value and the Russell 2000 indices. The Russell 2000 Value index is defined as an unmanaged index constructed to provide a comprehensive and unbiased barometer of the small cap value market. The Russell 2000 index is defined as an unmanaged index that contains the 2,000 smallest common stocks in the Russell 3000, which contains the 3,000 largest stocks in the U.S. based on total market capitalization. Composite performance may differ materially from the indexes as the composite only invests in a subset of the securities contained in the indexes and also invests in securities not contained in the indexes. As of January 1, 2016 there is no minimum account size for this composite. The minimum account size was \$250,000 previously.

RRAM is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group, Inc.

RRAM claims compliance with the Global Investment Performance Standards (GIPS<sup>®</sup>) and has prepared and presented this report in compliance with the GIPS<sup>®</sup> standards. RRAM has been independently verified for the periods April 1, 2005 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS<sup>®</sup> standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS<sup>®</sup> standards. The Small Cap Value Composite has been examined for the periods of April 1, 2005 through December 31, 2017. The verification and performance examination reports are available upon request. The firm maintains a complete list and description of composites and policies for valuing portfolios, calculating performance, and preparing compliant presentations which are available upon request by contacting Thomas D. Mueller, CFA, CPA at (502) 371-4100 or [thomas.mueller@riverroadam.com](mailto:thomas.mueller@riverroadam.com).

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of income. All performance presented is after the deduction of trading costs. Net of fee performance was calculated using actual management fees, which includes performance fees for some periods. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

The investment management fee schedule for the composite is 1.00% on the first \$10 million, 0.95% on the next \$15 million, 0.90% on the next \$25 million, and 0.80% on the remainder. Actual investment advisory fees incurred by clients may vary.

Effective August 29, 2007, the composite includes an account where transaction expenses are bundled with other expenses for the account. Therefore, transaction expenses for this account are not included in the performance calculation. Bundled fee accounts typically pay a fee based on a percentage of assets under management. Other than brokerage commissions this fee may include investment management, portfolio monitoring, consulting, and custodial services. Bundled fee accounts make up less than 1% of composite assets as of each year end shown.

The Small Cap Value Composite was created April 1, 2005. Performance presented prior to April 1, 2005 occurred while the original members of the Portfolio Management Team were affiliated with a prior firm and those Portfolio Management Team members were the only individuals primarily responsible for selecting the securities to buy and sell. A review of this track record for compliance with portability requirements of the GIPS<sup>®</sup> standards was conducted by Ashland Partners & Company.

2009	3,624	229	12	22.07%	21.21%	19.76%		0.3%	15.66	21.34
2008	2,597	81	6	-27.39%	-27.91%	-36.25%		N.A.	12.80	15.53

N.A. - Information for Composite Dispersion is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

**Dividend All-Cap Value Composite** contains fully discretionary equity income accounts that seek long-term capital appreciation and high current income by investing primarily in a diversified, all-cap basket of income producing equity securities that trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value® approach. The composite is primarily invested in dividend paying common stocks. The composite may also be invested in a broad range of foreign stocks, publicly traded partnerships, convertible preferred stocks, Real Estate Investment Trusts ("REITs"), investment companies, and royalty income trusts. RRAM employs a value-driven, bottom-up approach. The official benchmark for the composite was changed to the Russell 3000 Value from the Russell 3000 on July 1, 2007. RRAM determined that the Russell 3000 Value represents a more appropriate benchmark for the composite as determined by a process of evaluation which began once the Dividend All-Cap Value Composite completed its three-year track record in October 2006. The Russell 3000 Value index is defined as an unmanaged index constructed to provide a comprehensive and unbiased barometer of the broad value market. Composite performance may differ materially from the index as the composite only invests in a subset of the securities contained in the index and also invests in securities not contained in the index. As of January 1, 2016 there is no minimum account size for this composite. The minimum account size was \$250,000 previously.

RRAM is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group, Inc.

RRAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. RRAM has been independently verified for the periods April 1, 2005 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The Dividend All-Cap Value Composite has been examined for the periods of April 1, 2005 to December 31, 2017. The verification and performance examination reports are available upon request. The firm maintains a complete list and description of composites and policies for valuing portfolios, calculating performance, and preparing compliant presentations which are available upon request by contacting Thomas D. Mueller, CFA, CPA at (502) 371-4100 or [thomas.mueller@riverroadam.com](mailto:thomas.mueller@riverroadam.com).

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of income. All performance presented is after the deduction of trading costs. Net of fee performance was calculated using actual management fees. For periods including non-fee paying accounts, net was calculated for those accounts by applying the highest fee schedule effective at that time. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

The investment management fee schedule for the composite is 0.85% on the first \$10 million, 0.80% on the next \$15 million, 0.75% on the next \$25 million, and 0.65% on the remainder. Actual investment advisory fees incurred by clients may vary.

The Dividend All-Cap Value Composite was created April 1, 2005. Performance presented prior to April 1, 2005 occurred while the original members of the Portfolio Management Team were affiliated with a prior firm and those Portfolio Management Team members were the only individuals primarily responsible for selecting the securities to buy and sell. A review of this track record for compliance with portability requirements of the GIPS® standards was conducted by Ashland Partners & Company.

N.A. - Information for Composite Dispersion is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

N.A. - Information for 3-Year Ex Post Standard Deviation is not presented because 36 monthly returns are not available.

**Focused Absolute Value® Composite** contains fully discretionary accounts that seek capital appreciation by investing in equity securities that trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value® approach. RRAM selects securities from a universe of companies that are held by other RRAM strategies, which typically includes all market capitalizations. RRAM employs a value-driven, bottom-up fundamental approach. One client account is a current employee of RRAM. Prior to December 31, 2014, the composite was known as the Research Fund Composite. The official benchmark for the composite was changed to the Russell 3000 Value from the Russell 2500 Value on July 1, 2010. While the composite will likely be more similar to the Russell 2500 Value, RRAM determined that the Russell 3000 Value represents a more appropriate benchmark as it represents the true opportunity set for the composite. The Russell 3000 Value index is defined as an unmanaged index constructed to provide a comprehensive and unbiased barometer of the broad value market. Composite performance may differ materially from the index as the composite only invests in a subset of the securities contained in the index and also invests in securities not contained in the index. There is no minimum account size for this composite.

RRAM is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group, Inc.

RRAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. RRAM has been independently verified for the periods April 1, 2005 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The Focused Absolute Value® Composite has been examined for the periods of January 1, 2009 to December 31, 2017. The verification and performance examination reports are available upon request. The firm maintains a complete list and description of composites and policies for valuing portfolios, calculating performance, and preparing compliant presentations which are available upon request by contacting Thomas D. Mueller, CFA, CPA at (502) 371-4100 or [thomas.mueller@riverroadam.com](mailto:thomas.mueller@riverroadam.com).

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of income. All performance presented is after the deduction of trading costs. Net of fee performance is calculated using actual management fees. For periods including non-fee paying accounts, net was calculated for those accounts by applying the highest fee schedule. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains.

The investment management fee schedule for the composite is 0.75% on the first \$10 million, 0.60% on the next \$15 million, 0.55% on the next \$25 million, and 0.50% on the remainder. Actual investment advisory fees incurred by clients may vary.

The Focused Absolute Value® Composite was created January 1, 2009.

N.A. - Information for Composite Dispersion is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

N.A. - Information for 3-Year ExPost Standard Deviation is not presented because 36 monthly returns are not available.

\* Results shown for the year 2010 represent partial period performance from July 1, 2010 through December 31, 2010.

\*\*The Blended Index represents a 50% weighting of the Russell 3000 Index and a 50% weighting of the ICE BofAML US Treasury Bill (0-3 M) (Local Total Return); rebalanced daily

**Long-Short Equity Composite** contains a fully discretionary account that seeks equity-like returns with reduced volatility and an emphasis on capital protection by investing in long equity securities trading at a discount to our valuation, and short equity securities trading at a premium to our valuation, as determined using RRAM's proprietary Absolute Value® approach. The Composite will invest in short securities. The long and short portfolios will typically represent 50-100% and 10-90% of the total composite, respectively. Additionally, the composite may use options, futures, or other derivatives but these will not represent a significant portion of the composite. For comparison purposes, the composite is measured against the Blended Index and the Russell 3000. The Blended Index was added as a benchmark effective 10/31/2016. The Blended Index represents a 50% weighting of the Russell 3000 Index and a 50% weighting of the ICE BofAML U.S. Treasury Bill (0-3 M) (Local Total Return); rebalanced daily. The Russell 3000 index is defined as an unmanaged index that contains the 3,000 largest stocks in the U.S. based on total market capitalization. Composite performance may differ materially from the indexes as the composite only invests in a subset of the securities contained in the indexes and also invests in securities not contained in the indexes (including short securities). Additionally, the composite does not invest in Treasury Bills. As of January 1, 2016 there is no minimum account size for this composite. The minimum account size was \$200,000 previously.

RRAM is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group, Inc.

RRAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. RRAM has been independently verified for the periods April 1, 2005 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The Long-Short Equity Composite has been examined for the periods of July 1, 2010 to December 31, 2017. The verification and performance examination reports are available upon request. The firm maintains a complete list and description of composites and policies for valuing portfolios, calculating performance, and preparing compliant presentations which are available upon request by contacting Thomas D. Mueller, CFA, CPA at (502) 371-4100 or [thomas.mueller@riverroadam.com](mailto:thomas.mueller@riverroadam.com).

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of income. All performance presented is after the deduction of trading costs. Net of fee performance is calculated using actual management fees. For periods including non-fee paying accounts, net was calculated for those accounts by applying the highest fee schedule effective at that time. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains.

The investment management fee schedule for the composite is 1.30% on the first \$10 million, 1.20% on the next \$15 million, 1.10% on the next \$25 million, and 1.00% on the remainder. Actual investment advisory fees incurred by clients may vary.

The Long-Short Equity Composite was created July 1, 2010.

RIVER ROAD ASSET MANAGEMENT, LLC ("RRAM")

## DIVIDEND ALL-CAP VALUE II COMPOSITE

### ANNUAL DISCLOSURE PRESENTATION

DAV II										
Year End	Total Firm AUM (millions)	Composite		Annual Performance Results					3-Year Ex-Post Std Dev (Annualized)	
		AUM (millions)	Number of Accounts	Composite Gross	Composite Net	Russell 3000 Value	% of Non-Fee Paying Assets	Composite Dispersion	Composite	Russell 3000 Value
2017	5,425	1,649	16	10.93%	10.53%	13.19%		0.3%	9.68	10.33
2016	5,439	1,608	17	20.96%	20.50%	18.40%		0.4%	10.40	10.97

2012	7,122	107	7	8.99%	8.21%	17.55%		N.A.	N.A.	N.A.
2011	5,618	1	Five or Fewer	7.09%	6.24%	-0.10%	100%	N.A.	N.A.	N.A.

N.A. - Information for Composite Dispersion is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

N.A. - Information for 3-Year Ex Post Standard Deviation is not presented because 36 monthly returns are not available.

**Dividend All-Cap Value II Composite** contains fully discretionary equity income accounts that seek long-term capital appreciation and high current income by investing primarily in a diversified, multi-cap basket of equity income securities which have a market capitalization of typically at least \$1 billion at the time of initial purchase and trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value® approach. The Composite is primarily invested in dividend paying common stocks. The Composite may also be invested in a broad range of foreign stocks, publicly traded partnerships, convertible preferred stocks, Real Estate Investment Trusts ("REITs"), investment companies, and royalty income trusts. RRAM employs a value-driven, bottom-up approach. For comparison purposes, the composite is measured against the Russell 3000 Value. The Russell 3000 Value index is defined as an unmanaged index constructed to provide a comprehensive and unbiased barometer of the broad value market. Composite performance may differ materially from the index as the composite only invests in a subset of the securities contained in the index and also invests in securities not contained in the index. As of January 1, 2016 there is no minimum account size for this composite. The minimum account size was \$250,000 previously.

RRAM is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group, Inc.

RRAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. RRAM has been independently verified for the periods April 1, 2005 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The Dividend All-Cap Value II Composite has been examined for the periods of January 1, 2011 to December 31, 2017. The verification and performance examination reports are available upon request. The firm maintains a complete list and description of composites and policies for valuing portfolios, calculating performance, and preparing compliant presentations which are available upon request by contacting Thomas D. Mueller, CFA, CPA at (502) 371-4100 or [thomas.mueller@riverroadam.com](mailto:thomas.mueller@riverroadam.com).

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of income. All performance presented is after the deduction of trading costs. Net of fee performance is calculated using actual management fees, which includes performance fees for some periods. For periods including non-fee paying accounts, net was calculated for those accounts by applying the highest fee schedule effective at that time. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

The investment management fee schedule for the composite is 0.85% on the first \$10 million, 0.80% on the next \$15 million, 0.75% on the next \$25 million, and 0.65% on the remainder. Actual investment advisory fees incurred by clients may vary.

The Dividend All-Cap Value II Composite was created January 1, 2011.
